# INTRODUCING USA PHILATELIC, OUR CATALOG FOR STAMP ENTHUSIASTS.

Welcome to the flagship issue of *USA Philatelic*, our new catalog of stamps and products, created especially for stamp enthusiasts. We designed it to be as quick and easy to use as possible—while including all the information you need to make informed purchases.

This new catalog does not replace *Stamps etc.*; you will continue to receive that catalog as well. *USA Philatelic* is intended for customers who are primarily interested in our stamps, along with all the specialized and technical information that makes philately such a varied, educational and rewarding hobby. The focus of *Stamps etc.* will be less technical, and will share the fun and history of the hobby with those who enjoy collecting U.S. stamps and related products.

Once or twice a year, we will issue comprehensive editions like this one, which will include all the stamps available for sale, as well as previews of selected issues. Rather than duplicating this information again and again, other issues of *USA Philatelic* will feature primarily new issues, along with advance notice of stamps and products scheduled to go off sale. We urge you to save this catalog, because many of the stamps will not appear again until the next comprehensive edition.

We hope you share our excitement over the new *USA Philatelic*. In the months ahead, we will be working to make it even better.

Once again, welcome.

## READERS' FORUM

Welcome to our Readers' Forum, where we will address topics of particular interest to our readers. From the technical and the historical to the controversial—if it interests you, it interests us. Look for more informative material in future issues.

**QUESTION:** Why are there varieties of stamps? Is there a reason why a printer can't continue to use the same materials whenever it must reprint a stamp, so there aren't so many varieties of gum and tagging?

**ANSWER:** *The Postal Service tries to avoid the creation of varieties, and asks the printers to be consistent in the materials used for the production of any given stamp, even when it needs to be reprinted. Sometimes an operational need will result in a variety, like the decision to remove phosphor from low-value stamps a few years ago. Sometimes a desire to avoid waste will prompt the Postal Service to allow a printer to use up its supply of a certain type of paper rather than destroy it (this is the most common cause for a gum or adhesive variety).*

*The Philatelic Fulfillment Service Center (PFSC) is not automatically supplied with all stamp varieties, but systems are being established to ensure that future varieties are available. Please see the listings on page 5 for new varieties.*

Beginning in 1978, all stamp and postal stationery designs are copyrighted by the U.S. Postal Service. The USPS eagle symbol and logotype are registered trademarks of the United States Postal Service. All rights reserved.

## 1996 Centennial Olympic Games-Classic Collection

*The Olympic Games began in ancient Greece some 3,000 years ago with a simple foot race. The winner received an olive wreath cut from a tree reputedly planted by Hercules himself.*

*They have survived corruption, terrorism, confusion, discord and even outright abolition. Yet they endure.*

*Those who compete find the Games, in the words of 1956 Gold Medalist Mustafa Dagistani, "So beautiful, so big-hearted, so open to everything on earth."*

*Now, in honor of the 100th anniversary of the Modern Olympic Games being held this summer in Atlanta, the U.S. Postal Service is proud to issue these stamps in our Classic Collections series. They include 20 images depicting some of the most popular summer events.*

*Available in signed and unsigned uncut sheets; each stamp has information printed on the back about the event depicted.*

**GLOSSARY and SPECIAL NOTES**

A number of frequently used terms appear throughout this catalog and every issue of *USA Philatelic*.

The following convenient guide provides definitions.

**SHEET:** a full production unit (such as a "press sheet") for stamps as printed. "Sheet" stamps are generally subdivided into panes for sale; the number of panes per sheet typically defines the number of positions listed for an issue.

**EXCEPTIONS INCLUDE:** miniature sheet (a smaller-than-usual pane of stamps, often with a single stamp design, which may or may not include decorative borders), and souvenir sheet (a small, decorated sheetlet of stamps, usually with all different stamp designs).

**PANE:** a complete unit of stamps as sold. For "sheet" stamps, panes will include 20, 25, 40, 50, or 100 stamps. For booklets, a complete "page" of stamps is called a pane.

**BLOCK:** a partial pane, generally at least two rows wide and two rows deep.

**STRIP:** a single row of stamps defined by its quantity, such as "strip of five."

**NOTE:** stamps on these listing pages are usually shown at full size (100%) unless indicated.

**JUST A REMINDER TO MAKE A VISIT TO THE NATIONAL POSTAL MUSEUM**

On your next visit to Washington, DC, don't forget to stop at the **National Postal Museum** and see the exhibits. It is located at:

# ORDERING INFORMATION

**PRE-ORDERS:** New issues should be ordered no more than two weeks in advance of the listed date of issue. **All orders for items not yet on sale will be placed on back order, and will be sent out when all back-ordered items are in stock.** Items that are in stock on the same order will be sent out promptly.

**AVAILABILITY:** All items listed in this catalog are subject to availability. The Philatelic Fulfillment Service Center (PFSC) reserves the right to withdraw any item from sale without prior notice.

**STAMPS NO LONGER AVAILABLE:** Stamps no longer available from the U.S. Postal Service may be purchased from stamp dealers on the secondary market.

**UNDERPAYMENT:** If payment is not sufficient, the balance will be deducted from available funds. If adequate funds are not available, then items will be deleted from the order (every effort will be made to avoid deleting items that will soon be off sale).

**OVERPAYMENT:** Any overpayments or payments for items no longer available will be credited to you and will appear on a

printed invoice. Credit may be used in payment of future orders from Philatelic Fulfillment, or you may obtain a refund by calling Customer Service.

**EXCHANGES AND RETURNS:** We always strive to deliver items of the highest quality. If you do receive a damaged or flawed item, it may be returned for exchange or refund. Please submit a written request within 30 days clearly stating the nature of the problem. Be sure to include a copy of your order form/receipt.

**MISSING ORDERS:** Any claim for an order that was paid for but not received must include one of the following: (1) a copy of both sides of the cancelled check with the endorsement date on the back, or (2) a photocopy of your credit card bill along with the customer identification number, if any.

**CLAIMS:** Any claims on fulfilled orders, or any requests for exchange of damaged items should be submitted within 30 days to Customer Service, Box 419424, Kansas City, MO 64141-6424. The telephone number is 1 800 782-6724.

## SALES POLICY

It is the policy of the United States Postal Service and the PFSC to offer all items (postage stamps, postal stationery items and philatelic products) for a length of time sufficient enough to meet all customer demand. Stamps and products will remain on sale as follows (except when specific items sell out sooner):

**COMMEMORATIVE STAMPS AND PHILATELIC PRODUCTS:** Most post offices should have stamps and products available for at least one month from date of issue (except in the case of limited-edition products restricted to mail order only). Post offices may continue to sell any issue for at least one year if supplies remain. Philatelic centers, established specifically to serve the needs of collectors at many major post offices and in larger population centers, should

have stamps and products available for at least one year; sales may continue longer if supplies remain. (Any local post office can give you the address of nearby philatelic centers.) Mail orders placed through the PFSC will be honored for at least one year from date of issue.

**SPECIAL ISSUES, DEFINITIVE STAMPS AND POSTAL STATIONERY:** Most post offices will have supplies of these issues for more than one year. They may reorder any one of these issues until it has been replaced by a subsequent issue. (For example: a newer 32¢ Love stamp replacing an earlier one, or the issuance of a newer 5¢ definitive stamp, etc.) Issues currently in use should be available—or can be made available—at any U.S. post office or philatelic center. Mail orders through the PFSC will be honored for the life of the issue.

## SPECIAL INFORMATION

**MARGINAL INSCRIPTIONS:** Various kinds of markings may appear on the selvage of stamps printed in sheets—plate numbers, the USPS copyright notice, color control markings, informational inscriptions, and other printing marks or USPS slogans. Plate blocks (a block of stamps including the plate number) vary according to issue and plate position. You may specify other marginal inscription blocks for any issue on which they appear under Special Instructions on the order form. Certain minimum requirements may apply. See additional information and instructions on the back of the order form.

**ROUND-ROBINS:** Stamps printed in sheets are trimmed into individual panes, and sets of matching panes can be purchased. High-value (\$1 and up) plate blocks are often purchased as matching plate blocks of four: one from each corner of the pane, each with its plate number(s) in a different position. (See back of order form for codes.)

**FOR OFFSET/INTAGLIO ISSUES:** Due to frequent changes of offset plates, we can guarantee matched sets of intaglio plate numbers only.

**FOR BOOKLETS AND BOOKLET PANES:** We cannot guarantee specific plate numbers, slogans or electric eye markings.

**TAGGING:** Most stamps are phosphor tagged for automated mail handling. Although tagging varieties do occur, we can neither detect nor supply such varieties except in certain cases, which would be noted in the stamp listings.

**FIRST DAY COVERS:** To order First Day Covers for new issues, see the individual listings. To request first day of issue cancellations from the postmaster of the official first day city, send the postmaster your stamped, self-addressed envelope(s). Cancelled (standard #6¾ only) covers will be returned in protective envelopes. All requests must be postmarked no later than 30 days after date of issue unless otherwise indicated. **First Day Covers are on sale only 90 days from date of issue.**

**A CATALOG FOR A FRIEND:** We would be happy to add someone to our catalog mailing list... simply send us the name and complete mailing address.
